

Qualix-ANT **(Anti Creasing Agent)**

Qualix-ANT is newly developed assistant. This is good for synthetic detergent, cotton, polyester, viscose rayon, desizing and wetting for dyeing, crease, and disperse leveling agent in rotary washer. Especially, Qualix-ANT is good for guarding crease. For using cycling equally, this will gives high quality finish.

Properties

Appearance	:	Clear Liquid
Composition	:	High polymer compound
Ionic Nature	:	Weak anionic
pH (10% sol.)	:	7.5 +/- 0.5
Solubility	:	50 °C stirring resolution

Characteristics

1. Creasing problem occurs at the time of dyeing and finishing of Tencel. Qualix-ANT is perfectly works for remove creasing from fabric.
2. While using Qualix-ANT for dyeing and finishing process, it will decrease the quantity of finishing agent and improve the touch of dyed fabrics.
3. Qualix-ANT solves the problem of crease of cotton knit specially 10's, 20's when dyeing and finishing.
4. Qualix-ANT is non-forming type and it increases the operating efficiency of low bath ratio m/c. By improvement of circulation of the dyed fabrics.
5. It does not have any bad effect on the next process because Qualix-ANT having the excellent washing off properly.
6. It does not raise colored drip, because it is strong for acid, alkali and sodium chloride.

It can be diluted 98 times in water

Application Uses:

It depends on weight and work of fabric. Generally use 1-2% (o.w.f.)

Caution

Please stir well before use in service tank because it is granulated powder.
