

## Technical Data Sheet

### QUALIX-CPD

QUALIX-CPD is a powerful tailor made scouring agent to help combine pretreatment stamp viz desizing, scouring, bleaching for polyester, cotton, viscous and its blends. It is suitable for both continuous and batch process systems of pretreatments. QUALIX-CPD is non-hazardous non-toxic, low foaming and stable to both acidic and alkaline. It efficiently removes natural impurities, oils, waxes from the fabric and makes them absorbent. It also helps in getting uniform treatment on the fabric.

#### Technical Information

|                      |   |                                             |
|----------------------|---|---------------------------------------------|
| Appearance           | : | Crystalline powder                          |
| Chemical composition | : | Fatty alcohol with ethoxylated copolymer    |
| Ionic nature         | : | Non-ionic anionic blend                     |
| Ph (10 % solution)   | : | 7-0                                         |
| Solubility           | : | Soluble in cold water                       |
| Compatibility        | : | Compatible with non ionic anionic chemical  |
| Application          | : | Qualix-cpd: 0.5 % - 1.0%                    |
|                      |   | Caustic : x g\l                             |
|                      |   | Soda : 3gm\l                                |
|                      |   | Temp : 90 <sup>0</sup> – 120 <sup>0</sup> c |
