

Technical Data Sheet Qualix-ECO RNC

Description

Qualix-ECO RNC is cationic softener in flakes form. It is easily soluble in water at 50°C. It imparts excellent surface softness to all types of fabrics and minimize static problem and prevents soil attraction.

Typical Properties*

Parameters	Value
Appearance	Flakes
pH	3.5 – 5.5
Ionicity	Cationic
Solubility	Water Dispersible

Special Features

- Cationic softener
- Excellent surface finish
- Good lubrication & reduces friction
- Very low yellowing
- Improves sweability
- Antistatic effect

Application

- Cationic softener - textile applications
- Suitable for cotton, woven and knitted fabric

Method of Use

Recommended dosage

Dosage is usually varied with composition and a type of fabric/garments and process condition; generally

A dosage of 2-10 gpl (of diluted form) is ideal for application.
