

## Technical Data Sheet

### QUALIX-HFD1

Qualix-HFD1 is a specially developed silicones which when applied on fabric gives it good inner softness with excellent to all kinds of fabric like polyester & its blends

#### Technical Properties

|                  |   |                                         |
|------------------|---|-----------------------------------------|
| Nature           | : | Non-ionic                               |
| Appearance       | : | Light white to clear Liquid             |
| Specific Gravity | : | 0.98 to 1.02                            |
| pH               | : | 5 to 6                                  |
| Solubility       | : | Miscible in cold water                  |
| Compatibility    | : | Compatible with cationic and Non-ionic. |
| Solid content    | : | 17 +/- 2%                               |

#### Application

A dosage of 5-8 gpl is suggested by padding method but depending upon the fabric and feet required. It can be either dried in air or cured at 150-195 °C for 40-60 seconds

#### Note

It should be stored in a cool and dry place away from direct sunlight
