

Technical Data Sheet

Qualix- HTF

Introduction

Materials deemed to be non-hazardous consist of a blend of emulsion polymer, filler, tackifier, water.

Typical Properties

Form	:	Liquid
Appearance/colour/odour	:	White liquid, mild odour
Boiling Point (°C)	:	100°C (water)
Solubility in water (g/L)	:	Miscible
Specific Gravity	:	Typically 1.06
pH Value	:	Typically 7.0
Vapour Pressure	:	(20°C) 3 KPa
Physical State	:	Liquid
Viscosity	:	Typically 5,500cps
Precautions for safe handling :		Avoid eye contact and repeated or prolonged skin contact.
Conditions for safe storage :		Store in cool place and out of direct sunlight. Store away from incompatible materials described in Section 10. Protect from freezing. Keep containers closed when not in use - check regularly for leaks.

Recommended treat rate

The recommended dosage for this product is depends on weight of fabric.

, including any incompatibilities Store in cool place and out of direct sunlight. Store away from incompatible materials described in Section 10. Protect from freezing. Keep containers closed when not in use - check regularly for leaks.

Packaging

In HDPE drum or as per customer requirement
